

In partnership with:

Here for Nurses
and Midwives

Technology & Wellbeing Webinar Series

Digital technology and innovation are rapidly transforming healthcare and the roles of nurses and midwives.

.....

In partnership with Healthcare Conferences UK, Cavell's 2026 Technology and Wellbeing webinar series, will explore topics at the forefront of Healthcare Technology addressing how this can affect the wellbeing of nursing and midwifery professionals.

Through sharing Cavell's recent research findings, case studies, and discussing best practice and learnings the series will bring together varied insightful perspectives on topics including user centred design, the impact of technology and AI on work-life balance, and technology, wellbeing and patient safety.

Webinar 4: Connections at Work: How Technology Drives Collaboration

Tuesday 23rd June 2026 11:00-12:00

This event is FREE to attend, however please do reserve your ticket as numbers will be limited. You also have the option to make a donation Cavell.

In this session speakers **Frances Beadle**, Chief Nursing Information Officer Digital Health and Care Wales, and **David Jones-Stanley**, Customer Operations Director at Liaison Group will explore the realities of implementing workforce and digital systems across healthcare organisations, addressing both successes and challenges of the shift to Digital.

During the webinar Frances Beadle will be talking us through the design, implementation and national roll out of the Welsh Digital Care Records. As a live case study Frances will share how collaboration with front line users on a locally led level were fundamental to the success of this project.

David Jones-Stanley, Customer Operations Director at Liaison Group will draw on practical experience working alongside NHS teams exploring how digital technology can support service improvement as part of wider, people-led change. David will reflect on the value of understanding current pressures and workflows, and how thoughtfully introduced technology can help reduce friction, encourage collaboration and support teams as they adapt and improve how they work.

Through case studies, practical experience and insights, this webinar will illustrate how adoption only happens when technology actively supports collaboration, reduces administrative burden, and strengthens connections between teams delivering care.

Speakers include:

Frances Beadle

Chief Nursing Information Officer
Digital Health and Care Wales

David Jones-Stanley

Customer Operations Director
Liaison Group

Webinar 5: Training and Education: Best Practices for Embedding Digital in Organisations

Thursday 9th July 2026 11:00-12:00

This event is FREE to attend, however please do reserve your ticket as numbers will be limited. You also have the option to make a donation Cavell.

Join this webinar to explore how healthcare organisations can successfully embed digital systems and processes in practice, and how digital transformation is reshaping training, learning and education for nursing and midwifery professionals. Digital solutions deliver the greatest impact when they are understood, embraced and embedded across an organisation.

In this webinar, speakers **Adjoa Nisha-Jennings**, Digital Education Lead at St Francis Hospice and **Antonia Frost** Chief Nursing Information Officer Sussex Community NHS Foundation Trust will share practical insights on building digital education within your organisation, supporting digital champions, and using person-centred, people-focused approaches to drive successful and sustainable implementation.

Future Webinar Titles

Equity and Accessibility and the Future of Healthcare Technology - To be announced

“As a CNIO, I see how digital innovation transforms nursing and midwifery—reducing admin burden, enhancing communication, and enabling flexible growth. Yet we must address screen fatigue, overload, and constant change. True progress means co-designing intuitive, empowering systems that uphold compassionate care making technology a partner in wellbeing, not a barrier”

Frances Beadle, Chief Nursing Information Officer
Digital Health and Care Wales
