WHY EXHIBIT WITH US?

OPTIMISING ELECTRONIC PRESCRIBING & MEDICINES ADMINISTRATION (EPMA) IN HOSPITALS

THU 19 MAR 2026

THE STUDIO CONFERENCE CENTRE, BIRMINGHAM

This conference is a free event for those in the NHS.

Exhibit at 2 Leading NHS Conferences – One Stand, Double Exposure

With a shared exhibition space and overlapping delegate base, this is a 2-for-1 opportunity to connect with clinicians, pharmacists, prescribers, managers, and decision-makers in NHS and social care settings.

Meet with and demonstrate your Electronic Prescribing innovations to a specialist audience of; Electronic Prescribing & Medicines Administration Leads, Chief Pharmacists, Medication Safety Officers, Medical Directors, Chief Clinical Information Officers, ePrescribing pharmacists and Senior Clinicians & Managers with an interest in eprescribing and reducing medication errors.

This National Annual Conference & Exhibition will focus on the optimisation of Hospital Electronic Prescribing and Medicines Administration on (HePMA). The conference will enable you to improve the use of electronic prescribing systems towards advanced eprescribing, closed loop medicines administration and advanced clinical decision support to ensuring the full clinical benefits are achieved. The conference will enable delegates to understand how they can use data from EPMA systems to drive improvement, and learn from case studies in higher risk EPMA areas such as paediatrics and mental health. The conference will also look at difficult issues such as the management of downtime, integration and mergers of systems. Case studies will demonstrate how AI can improve eprescribing, and how the role of digital clinical champions and digital heroes can enhance your eprescribing systems to ensure improvements in patient safety, staff satisfaction and efficiency.

The conference will discuss the safe use of EPMA in hospitals including risk mitigation areas you can investigate and update now as a result of findings from the the HSSIB medication related harm investigations which will be used to inform a national investigation into “The safe use of Electronic Prescribing and Administration Systems (ePMA) in acute hospitals” which will start in spring 2025.

WHY EXHIBIT WITH US?

CONTROLLED DRUGS: ENSURING THE SAFER MANAGEMENT, DIVERSION & ABUSE, PRESCRIBING AND USE

THU 19 MAR 2026

THE STUDIO CONFERENCE CENTRE, BIRMINGHAM

Aimed at Controlled Drugs Accountable Officers, Pharmacists, Police Controlled Drugs Liaison Officers, and Prescribers including Non Medical Prescribers, the conference will update you on current national developments, developing the role of the CDAO and improve practice learning from case studies.

The National Controlled Drugs Conference focuses ensuring the Safer Management of Controlled Drugs: Diversion & Abuse, Prescribing and Use. Aimed at Controlled Drugs Accountable Officers, Pharmacists, Police Controlled Drugs Liaison Officers, and Prescribers including Non Medical Prescribers, the conference will update you on current national developments, developing the role of the CDAO and improve practice learning from case studies. There is also new sessions focusing on a case study on accounting for losses on a hospitals ward, and a Coroner Perspective; learning from the Coroner and Prevention of Future Deaths reports following the 2025 CQC findings.
